

## Spare Parts Kits – PaceSetter™ HB-25, HB-55, HB-65 Tabletop Baggers

Downtime can cost your business hundreds of dollars per hour. Maintaining an inventory of spare parts on-hand could prevent valuable lost production time and keep your packaging system operating at peak performance.

At Automated Packaging Systems, we manufacture reliable, high-quality bag packaging equipment that is designed for maximum productivity and uptime. For every bagging system we build, a Spare Parts Kit is available to support on-site service and preventative maintenance requirements. Our comprehensive Spare Parts offering makes it easy for you to source and secure the genuine Autobag® parts you need, when you need them – without the potential for alternate source substitution, obsolescence or out-of-stock issues that could arise with a third-party provider.

To learn more, or to place an order, please call us at 330-342-2000 or toll free at 1-888-AUTOBAG.
