

AutoSleeve ASL-I Stretch Sleeve Labeler

Reduce bottle labeling costs and maximize uptime with our solidly built, remanufactured ASL-I Stretch Sleeve Labeler. This fully automatic labeling machine is engineered to maximize uptime and can label a variety of containers at speeds up to 90 bottles per minute. Heat or glue is not used for application and labels are held in place by the natural elastic properties of polyethylene. Our LLDPE or LDPE Sleeve materials offer excellent 360° print coverage.

Features and Benefits

- Simple operation
- Fast and easy tooling changeover
- Bottle jam detector
- Operates at speeds up to 90 bottles per minute (based on container size and structure)

Technical Information

Weight	1850 lbs.
Height	77 in.
Width	55.75 in.
Width with electronic cabinet door open	76.5 in.
Depth	47 in.
Depth with front door open	72.63 in.
Power Consumption	18 amps @ 220 V Single Phase = 4 KVA 9 amps @ 440 V Single Phase = 4 KVA
Drive Motor	2 hp, AC
Vacuum Motor	2 hp, AC
Air Consumption	1.5 cfm @ 80 psi (43.5 liters/min @ 5.5 bar)
Machine Orientation	90 degree angle, right or left

Markets Served
