Introducing the Autobag® 800S™ Wide Bagging System –
The most technologically-advanced bagging system for extra-large bag packaging

The new Autobag® 800S™ bagger is uniquely designed to provide enhanced productivity for large bag packaging applications up to 22” wide. This system features a breakthrough bag opening technology that securely grips and holds the open bag in place, creating a large, square opening (up to 11” x 11”) that allows for easy loading of large products and multiple items.

State-of-the-art engineering has resulted in a system that is inherently safe. The Autobag 800S eliminates the need for bulky guarding or devices required for safe operation. The unobstructed access makes loading ergonomic and improves operator throughput. This open design also makes the 800S highly compatible with Autobag and third-party counters, scales and infeeds.

When used with genuine Autobag pre-opened bags-in-a-box, the Autobag 800S ushers in the next evolution of high-quality, reliable and flexible wide bag packaging, backed by the industry’s most comprehensive engineering and field service network.

Markets Served
- Aerospace & Defense
- Apparel & Accessories
- Automotive
- Electronics
- Commercial Laundry
- Hardware & Fasteners
- Healthcare
- Hobby & Craft
- Toys
- Household Products
- Personal Products
- Pet Products

Minimal guarding provides unobstructed access to the open bag

Programmable pass-through up to 11” for maximum flexibility

Simple bag threading for easy changeover to keep production lines running smoothly

Automated Packaging Systems Inc.
10175 Philipp Parkway, Streetsboro, Ohio 44241

**Features and Benefits**

**Extra Large Bag Sizes**
Capable of running bags up to 22” wide for bulky products and packaging multiple items into a single bag

**High Quality Seals**
Coordinated seal flattener for wrinkle free seals

**Continuous Film Control**
A sophisticated tension control unit centers and monitors the position of the film throughout the entire bagging process

**Compact**
Compact footprint minimizes floor space

**Flexible**
Easily integrates with automation equipment and existing production lines

**Breakthrough Technology**
Advanced bag opening system allows for more product to be placed into a bag, creating less waste

**Easy Loading**
Modular bag storage shelf speeds bag changeovers

**Intuitive Interface**
AutoTouch™ Control Screen accesses operator tutorials, help system, on-board diagnostics, data retrieval, and performance monitoring. It features menu or graphic-based selection options.

---

**Optional Additions**

- Rear Takeaway Conveyor
- Side Exit Takeaway Conveyor
