The FAS SPrint Revolution™ – Transforming food packaging flexibility, performance and productivity

The FAS SPrint Revolution™ Bagging System brings new levels of speed and versatility to demanding packaging environments that require daily washdown procedures. Operating at speeds up to 900 inches per minute, this state-of-the-art packaging system is designed for the ultimate in bag packaging flexibility, functionality and reliability.

Engineered to satisfy high-productivity requirements, the FAS SPrint Revolution presents a conveyor of pre-opened bags that are staged for immediate loading. The 60” wide load area features a 6” pass-through, and tilts vertically for easy maintenance and sanitation. An innovative Coordinated Motion Seal Flattener is coupled with a band sealing system to ensure high quality, airtight, 3/8” bag seals. The system operates in continuous, intermittent or batch modes, and cycles on pre-set parameters, or manually with a footswitch. This highly flexible design accommodates one or more operators or infeeds and a wide variety of products and bag sizes.

An integrated Allen-Bradley® control package, featuring Kinetix® Servo motors and drives, a CompactLogix™ L45 PLC, and a large, 10” PanelView™ Plus HMI, is designed for ease of operation, serviceability, integration, and overall system reliability. Programming of all components is done with a simple flash card. The AutoTouch™ Control Software displays real time productivity data and provides easy access to job storage, job recall and on-board system diagnostics.

Genuine SidePouch® bags are system-matched for optimum performance, and offer a variety of value-added features, such as reclosable zippers, resealable flaps and tamper-evident perforations. Since the bags are pre-made, costly machine modifications are not needed to utilize these features. SidePouch bags are available in an assortment of materials that can be pre-printed in up to 10-colors with high-resolution graphics, text and bar codes for unique, attractive packaging with a competitive edge.

Markets Served
- Frozen and IQF Food Products
- Meat, Poultry, Fish and Meat by-products
- Fresh Whole and Cut Produce
- Fresh and Dried Pastas
- Fresh and Frozen Snack Foods
- Pet Food Products
- Medical, Automotive, and Mail Order Fulfillment

Corrosion-resistant, stainless steel construction for daily washdown procedures

Band sealer and Coordinated Motion Seal Flattener combine for high quality, attractive, airtight seals

The 60” wide load area features a 6” pass-through

AutoThread™ feature simplifies and speeds bag changeovers

Automated Packaging Systems Inc.
10175 Philipp Parkway, Streetsboro, Ohio 44241
888-AUTOBAG info@autobag.com autobag.com
**Features and Benefits**

**Flexible**
Accommodates a wide variety of loading methods, automatic infeeds, inline imprinters, products and bag sizes

**Multi-Dimensional**
Runs laminated stand-up pouches and regular poly bags interchangeably

**Reliable**
Integrated Allen-Bradley® control package for reliability

**Easy Recall**
On-board memory stores data for up to 25 jobs

**Easy Loading**
AutoThread™ feature simplifies and speeds bag changeovers

**Washdown Capability**
IP65 rated, with NEMA 4x enclosures for safe operation

**Mobile**
Standard casters for easy movement

**Sanitary Design**
Major assemblies rotate to simplify cleaning and maintenance

**Intuitive Interface**
State-of-the-art controls and operator-friendly AutoTouch™ Control Software simplify user experience

**Optional Additions**

- Washdown-compatible Inline Imprinter
- Product Load Table
- Product Support Conveyor
- Bag Deflation
- Tie-in Kits for Auxiliary Infeeds
- Additional Operator Footswitches (Up to two)
- Positive Entry Dunk Funnels
- Spare Parts Kits
- Custom Engineering & Integration Design and Support

**Technical Information**

- Weight: 1134 lbs.
- Electrical: 110/230 VAC; 50/60 Hz; 12/6 Amps
- Air Feed: 5 CFM/80 psi of clean, dry air
- Pass-Through: Up to 6 in.
- Bag Thickness: 1.32 – 4.0 mil
- Bag Sizes: W 2 to 20 in. L 3 to 18.75 in.
- Weight Capacity: Up to 15 lbs. per bag (with support conveyor)

**System Matched Bags**

**Service & Support**

**Custom Engineering & Integration**
